

My name is Peter Amoah, and I am currently pursuing a doctoral degree in Plant Breeding and Genetics in the Department of Crop Production and Landscape Management at Ebonyi State University (EBSU), Nigeria. My research is being supervised by a team of four seasoned scientists, comprising two faculty members from EBSU and two researchers from the International Institute of Tropical Agriculture (IITA), Ibadan, Nigeria.

### **Bio-data**

Name: Peter Amoah

Date of birth: 22/08/1997

Nationality: Ghanaian

Email: Peteramoah687@gmail.com

Phone: +2349068906357

### **Education**

Current institution: Ebonyi State University

Degree Program: PhD in Plant breeding and Genetics

Year of Study: 1<sup>st</sup> Year

Qualification: MSc in Plant breeding

Awarding University: Pan African University Life and Earth Sciences Institute (including Health and Agriculture), Ibadan, Nigeria

**Research Topic:** Integration of Rhizosphere Metagenome-Wide Association Analysis for Taro Leaf Blight Management and Food Quality Improvement.

**Research Site:** Three experimental sites have been mapped for the study. These sites encompass Umudike, Enugu And Abakaliki.
